PROPOSED AMENDMENT
HB 1002 # 8

DIGEST

Delayed implementation. Delays the school year in which the requirement in SECTION 12 of the bill for students in grade 9 or 10 to enroll in a college or career course or an introductory career and technical education course until after the department of education presents the estimated costs of this requirement to the budget committee and the additional costs to implement the requirement are funded as separate grants over each school's distribution of tuition support. Delays the school year in which the requirement in SECTION 13 of the bill that each school corporation and charter school include in its school improvement plan a summary of how the school will implement the career standards curriculum until after the department of education presents the estimated costs of implementing the career standards curriculum to the budget committee and the additional costs to implement the career standard curriculum are funded as separate grants over each school's distribution of tuition support.

1 Page 9, line 14, after "24." insert "(a) The department shall present to the budget committee with the department's estimates of the additional cost to each school corporation to implement the requirements of subsection (b). The budget committee shall review the department's estimates and may make recommendations.

   (b) This subsection applies only to a school year beginning after the budget committee completes its review under subsection (a) and the additional costs required by this subsection are funded separately as a additional grant amount to each school corporation over the school corporation's distribution of tuition support under IC 20-43.".

Page 9, line 37, after "expires," insert "the department shall present to the budget committee with the department's estimates of the additional cost to each school corporation and charter school to implement the curriculum described in IC 20-30-5-14(f), including the proposed student activities. The budget committee shall review the department's estimates and may make recommendations.

   (g) This subsection applies only to a school year beginning after the budget committee completes its review under subsection (f) and the additional costs required to implement this subsection and the
curriculum described in IC 20-30-5-14(f), including the proposed student activities, are funded separately as an additional grant amount to each school corporation over the school corporation's distribution of tuition support under IC 20-43.".

Page 9, line 37, delete "each" and insert "Each".
