Synopsis: HIV and fatality reviews. Removes acquired immune deficiency syndrome (AIDS) from the statutory definition of "exposure risk disease". Replaces the term "AIDS" with the term "human immunodeficiency virus (HIV)" where appropriate. Replaces the term "carrier" with the term "individual with a communicable disease" where appropriate. Replaces the term "danger" with the term "risk" where appropriate. Replaces the term "spread" with the term "transmission" where appropriate. Replaces the term "HIV antibody" with "human immunodeficiency virus (HIV)" where appropriate. Requires the state department of health (department) to specify, in any literature provided to children and young adults concerning HIV, that abstinence is one way to prevent the transmission of HIV. (Current law states that abstinence is the best way to prevent the transmission of HIV). Provides that a physician or the authorized representative of a physician may not order an HIV test unless the physician or the authorized representative of a physician: (1) informs the patient of the test orally or in writing; (2) provides the patient with an explanation of the test orally, in writing, by video, or by a combination of these methods; and (3) informs the patient orally or in writing of the patient's right to ask questions and to refuse the test. Requires the information to be communicated to the patient in a language or manner that the patient understands. Requires a physician or an authorized representative of the physician to inform a patient of the counseling services and treatment options available to the patient if an HIV test indicates that the patient is HIV positive. Requires a patient to be (Continued next page)

notified of their right to: (1) hearing; and (2) counsel; in certain situations involving a court ordered HIV test. Specifies that the use of antiretroviral drugs and other medical interventions may lessen the likelihood of transmitting HIV to a child during childbirth. (Current law states that birth by caesarean section may lessen the likelihood of transmitting HIV to a child during childbirth). Provides that the requirement to dispose of semen that contains the HIV antibody does not apply if the semen is used according to safer conception practices endorsed by the federal Centers for Disease Control and Prevention or other generally accepted medical experts. Requires a suicide and overdose fatality review team (SOFR team) to review certain suicide and overdose fatalities. Allows a SOFR team to make recommendations concerning the prevention of suicide and overdose fatalities. Specifies membership, record keeping, and data entry requirements for SOFR teams. (F) Lymphogranuloma venereum.
(G) Syphilis.
(H) Tuberculosis.

(3) "Offense involving the transmission of a bodily fluid" means any offense (including a delinquent act that would be a crime if committed by an adult) in which a bodily fluid is transmitted from the defendant to the victim in connection with the commission of the offense.

(c) This subsection applies only to a defendant who has been charged with a potentially disease transmitting offense. At the request of an alleged victim of the offense, the parent, guardian, or custodian of an alleged victim who is less than eighteen (18) years of age, or the parent, guardian, or custodian of an alleged victim who is an endangered adult (as defined in IC 12-10-3-2), the prosecuting attorney shall petition a court to order a defendant charged with the commission
of a potentially disease transmitting offense to submit to a screening
test to determine whether the defendant is infected with a dangerous
serious disease. In the petition, the prosecuting attorney must set forth
information demonstrating that the defendant has committed a
potentially disease transmitting offense. The court shall set the matter
for hearing not later than forty-eight (48) hours after the prosecuting
attorney files a petition under this subsection. The alleged victim, the

following the hearing, the court finds probable cause to believe that the
defendant has committed a potentially disease transmitting offense, the
court may order the defendant to submit to a screening test for one (1)
or more dangerous serious diseases. If the defendant is charged with
battery (IC 35-42-2-1) or domestic battery (IC 35-42-2-1.3) involving
placing a bodily fluid or waste on another person, the court may limit
testing under this subsection to a test only for human

additional testing for human immunodeficiency virus (HIV) as may be
medically appropriate. The court shall take actions to ensure the
confidentiality of evidence introduced at the hearing.
(d) This subsection applies only to a defendant who has been
charged with an offense involving the transmission of a bodily fluid. At
the request of an alleged victim of the offense, the parent, guardian, or
custodian of an alleged victim who is less than eighteen (18) years of
age, or the parent, guardian, or custodian of an alleged victim who is
an endangered adult (as defined in IC 12-10-3-2), the prosecuting

infected with a dangerous serious disease. In the petition, the
prosecuting attorney must set forth information demonstrating that:

(1) the defendant has committed an offense; and

(2) a bodily fluid was transmitted from the defendant to the victim
in connection with the commission of the offense.
The court shall set the matter for hearing not later than forty-eight (48)
hours after the prosecuting attorney files a petition under this
subsection. The alleged victim of the offense, the parent, guardian, or
custodian of an alleged victim who is less than eighteen (18) years of

committed an offense and that a bodily fluid was transmitted from the
defendant to the alleged victim in connection with the commission of
the offense, the court may order the defendant to submit to a screening
test for one (1) or more serious diseases. If the defendant is
charged with battery (IC 35-42-2-1) or domestic battery
(IC 35-42-2-1.3) involving placing bodily fluid or waste on another
person, the court may limit testing under this subsection to a test only
for human immunodeficiency virus (HIV). However, the court may
order additional testing for human immunodeficiency virus (HIV) as
may be medically appropriate. The court shall take actions to ensure
the confidentiality of evidence introduced at the hearing.

(e) The testimonial privileges applying to communication between
a husband and wife and between a health care provider and the health
care provider's patient are not sufficient grounds for not testifying or
providing other information at a hearing conducted in accordance with
this section.

(f) A health care provider (as defined in IC 16-18-2-163) who
discloses information that must be disclosed to comply with this
section is immune from civil and criminal liability under Indiana
statutes that protect patient privacy and confidentiality.

(g) The results of a screening test conducted under this section shall
be kept confidential if the defendant ordered to submit to the screening
test under this section has not been convicted of the potentially disease
transmitting offense or offense involving the transmission of a bodily
fluid with which the defendant is charged. The results may not be made
available to any person or public or private agency other than the
following:

victim's counsel.

The results of a screening test conducted under this section may not be admitted against a defendant in a criminal proceeding or against a child in a juvenile delinquency proceeding.

(h) As soon as practicable after a screening test ordered under this section has been conducted, the alleged victim or the parent, guardian, or custodian of an alleged victim who is less than eighteen (18) years of age, or the parent, guardian, or custodian of an alleged victim who is an endangered adult (as defined in IC 12-10-3-2), and the victim's counsel shall be notified of the results of the test.

SECTION 27. IC 16-41-9-1.5, AS AMENDED BY P.L.109-2015, SECTION 39, IS AMENDED TO READ AS FOLLOWS [EFFECTIVE JULY 1, 2020]: Sec. 1.5. (a) If a public health authority has reason to believe that:

(1) an individual:

(A) has been infected with; or

(B) has been exposed to;

a dangerous serious communicable disease or outbreak; and

(2) the individual is likely to cause the infection of an uninfected individual if the individual is not restricted in the individual's ability to come into contact with an uninfected individual;

the public health authority may petition a circuit or superior court for an order imposing isolation or quarantine on the individual. A petition for isolation or quarantine filed under this subsection must be verified and include a brief description of the facts supporting the public health authority's belief that isolation or quarantine should be imposed on an individual, including a description of any efforts the public health

HB 1182—LS 7135/DI 123
authority made to obtain the individual's voluntary compliance with
isolation or quarantine before filing the petition.

(b) Except as provided in subsections (e) and (k), an individual
described in subsection (a) is entitled to notice and an opportunity to
be heard, in person or by counsel, before a court issues an order
imposing isolation or quarantine. A court may restrict an individual's
right to appear in person if the court finds that the individual's personal
appearance is likely to expose an uninfected person to a dangerous
serious communicable disease or outbreak.

(c) If an individual is restricted from appearing in person under
subsection (b), the court shall hold the hearing in a manner that allows
all parties to fully and safely participate in the proceedings under the
circumstances.

(d) If the public health authority proves by clear and convincing
evidence that:

(1) an individual has been infected or exposed to a dangerous
serious communicable disease or outbreak; and
(2) the individual is likely to cause the infection of an uninfected
individual if the individual is not restricted in the individual's
ability to come into contact with an uninfected individual;
the court may issue an order imposing isolation or quarantine on the
individual. The court shall establish the conditions of isolation or
quarantine, including the duration of isolation or quarantine. The court
shall impose the least restrictive conditions of isolation or quarantine
that are consistent with the protection of the public.

(e) If the public health authority has reason to believe that an
individual described in subsection (a) is likely to expose an uninfected
individual to a dangerous serious communicable disease or outbreak
before the individual described in subsection (a) can be provided with
notice and an opportunity to be heard, the public health authority may
seek in a circuit or superior court an emergency order of quarantine or
isolation by filing a verified petition for emergency quarantine or
isolation. The verified petition must include a brief description of the
facts supporting the public health authority's belief that:

(1) isolation or quarantine should be imposed on an individual;
and
(2) the individual described in subsection (a) may expose an
uninfected individual to a dangerous serious communicable
disease or outbreak before the individual described in subsection
(a) can be provided with notice and an opportunity to be heard.
The verified petition must include a description of any efforts the
public health authority made to obtain the individual's voluntary
compliance with isolation or quarantine before filing the petition.

(f) If the public health authority proves by clear and convincing
evidence that:

(1) an individual has been infected or exposed to a **dangerous serious** communicable disease or outbreak;

(2) the individual is likely to cause the infection of an uninfected individual if the individual is not restricted in the individual's ability to come into contact with an uninfected individual; and

(3) the individual may expose an uninfected individual to a **dangerous serious** communicable disease or outbreak before the individual can be provided with notice and an opportunity to be heard;

the court may issue an emergency order imposing isolation or quarantine on the individual. The court shall establish the duration and other conditions of isolation or quarantine. The court shall impose the least restrictive conditions of isolation or quarantine that are consistent with the protection of the public.

(g) A court may issue an emergency order of isolation or quarantine without the verified petition required under subsection (e) if the court receives sworn testimony of the same facts required in the verified petition:

(1) in a nonadversarial, recorded hearing before the judge;

(2) orally by telephone or radio;

(3) in writing by facsimile transmission (fax); or

(4) through other electronic means approved by the court.

If the court agrees to issue an emergency order of isolation or quarantine based upon information received under subdivision (2), the court shall direct the public health authority to sign the judge's name and to write the time and date of issuance on the proposed emergency order. If the court agrees to issue an emergency order of isolation or quarantine based upon information received under subdivision (3), the court shall direct the public health authority to transmit a proposed emergency order to the court, which the court shall sign, add the date of issuance, and transmit back to the public health authority. A court may modify the conditions of a proposed emergency order.

(h) If an emergency order of isolation or quarantine is issued under subsection (g)(2), the court shall record the conversation on audiotape and order the court reporter to type or transcribe the recording for entry in the record. The court shall certify the audiotape, the transcription, and the order retained by the judge for entry in the record.

(i) If an emergency order of isolation or quarantine is issued under subsection (g)(3), the court shall order the court reporter to retype or
copy the facsimile transmission for entry in the record. The court shall
certify the transcription or copy and order retained by the judge for
entry in the record.

(j) The clerk shall notify the public health authority who received an
emergency order under subsection (g)(2) or (g)(3) when the
transcription or copy required under this section is entered in the
record. The public health authority shall sign the typed, transcribed, or
copied entry upon receiving notice from the court reporter.

(k) The public health authority may issue an immediate order
imposing isolation or quarantine on an individual if exigent
circumstances, including the number of affected individuals, exist that
make it impracticable for the public health authority to seek an order
from a court, and obtaining the individual's voluntary compliance is or
has proven impracticable or ineffective. An immediate order of
isolation or quarantine expires after seventy-two (72) hours, excluding
Saturdays, Sundays, and legal holidays, unless renewed in accordance
with subsection (l). The public health authority shall establish the other
conditions of isolation or quarantine. The public health authority shall
impose the least restrictive conditions of isolation or quarantine that are
consistent with the protection of the public. If the immediate order
applies to a group of individuals and it is impracticable to provide
individual notice, the public health authority shall post a copy of the
order where it is likely to be seen by individuals subject to the order.

(l) The public health authority may seek to renew an order of
isolation or quarantine or an immediate order of isolation or quarantine
issued under this section by doing the following:

(1) By filing a petition to renew the emergency order of isolation
or quarantine or the immediate order of isolation or quarantine
with:

(A) the court that granted the emergency order of isolation or
quarantine; or

(B) a circuit or superior court, in the case of an immediate
order.

The petition for renewal must include a brief description of the
facts supporting the public health authority's belief that the
individual who is the subject of the petition should remain in
isolation or quarantine and a description of any efforts the public
health authority made to obtain the individual's voluntary
compliance with isolation or quarantine before filing the petition.

(2) By providing the individual who is the subject of the
emergency order of isolation or quarantine or the immediate order
of isolation or quarantine with a copy of the petition and notice of
(3) By informing the individual who is the subject of the emergency order of isolation or quarantine or the immediate order of isolation or quarantine that the individual has the right to:
   (A) appear, unless the court finds that the individual's personal appearance may expose an uninfected person to a dangerous *serious* communicable disease or outbreak;
   (B) cross-examine witnesses; and
   (C) counsel, including court appointed counsel in accordance with subsection (c).

(4) If:
   (A) the petition applies to a group of individuals; and
   (B) it is impracticable to provide individual notice;
by posting the petition in a conspicuous location on the isolation or quarantine premises.

(m) If the public health authority proves by clear and convincing evidence at a hearing under subsection (l) that:
   (1) an individual has been infected or exposed to a dangerous *serious* communicable disease or outbreak; and
   (2) the individual is likely to cause the infection of an uninfected individual if the individual is not restricted in the individual's ability to come into contact with an uninfected individual;
the court may renew the existing order of isolation or quarantine or issue a new order imposing isolation or quarantine on the individual. The court shall establish the conditions of isolation or quarantine, including the duration of isolation or quarantine. The court shall impose the least restrictive conditions of isolation or quarantine that are consistent with the protection of the public.

(n) Unless otherwise provided by law, a petition for isolation or quarantine, or a petition to renew an immediate order for isolation or quarantine, may be filed in a circuit or superior court in any county. Preferred venue for a petition described in this subsection is:
   (1) the county or counties (if the area of isolation or quarantine includes more than one (1) county) where the individual, premises, or location to be isolated or quarantined is located; or
   (2) a county adjacent to the county or counties (if the area of isolation or quarantine includes more than one (1) county) where the individual, premises, or location to be isolated or quarantined is located.
This subsection does not preclude a change of venue for good cause shown.
(o) Upon the motion of any party, or upon its own motion, a court may consolidate cases for a hearing under this section if:

1. the number of individuals who may be subject to isolation or quarantine, or who are subject to isolation or quarantine, is so large as to render individual participation impractical;
2. the law and the facts concerning the individuals are similar; and
3. the individuals have similar rights at issue.

A court may appoint an attorney to represent a group of similarly situated individuals if the individuals can be adequately represented. An individual may retain his or her own counsel or proceed pro se.

(p) A public health authority that imposes a quarantine that is not in the person's home:

1. shall allow the parent or guardian of a child who is quarantined under this section; and
2. may allow an adult;

to remain with the quarantined individual in quarantine. As a condition of remaining with the quarantined individual, the public health authority may require a person described in subdivision (2) who has not been exposed to a dangerous serious communicable disease to receive an immunization or treatment for the disease or condition, if an immunization or treatment is available and if requiring immunization or treatment does not violate a constitutional right.

(q) If an individual who is quarantined under this section is the sole parent or guardian of one (1) or more children who are not quarantined, the child or children shall be placed in the residence of a relative, friend, or neighbor of the quarantined individual until the quarantine period has expired. Placement under this subsection must be in accordance with the directives of the parent or guardian, if possible.

(r) State and local law enforcement agencies shall cooperate with the public health authority in enforcing an order of isolation or quarantine.

(s) The court shall appoint an attorney to represent an indigent individual in an action brought under this chapter or under IC 16-41-6. If funds to pay for the court appointed attorney are not available from any other source, the state department may use the proceeds of a grant or loan to reimburse the county, state, or attorney for the costs of representation.

(t) A person who knowingly or intentionally violates a condition of isolation or quarantine under this chapter commits violating quarantine or isolation, a Class A misdemeanor.

(u) The state department shall adopt rules under IC 4-22-2 to...
implement this section, including rules to establish guidelines for:

1. voluntary compliance with isolation and quarantine;
2. quarantine locations and logistical support; and
3. moving individuals to and from a quarantine location.

The absence of rules adopted under this subsection does not preclude the public health authority from implementing any provision of this section.

2. No person may be required to receive an immunization without that person's consent. No child may be required to receive an immunization without the consent of the child's parent, guardian, or custodian. The state department may implement the procedures described in section 1.5 of this chapter concerning a person who refuses to receive an immunization or the child of a parent, guardian, or custodian who refuses to consent to the child receiving an immunization.
3. The state department shall adopt rules to implement this section. The absence of rules adopted under this subsection does not preclude the public health authority from implementing any provision of this section.

1. is transmissible through normal school contacts; and
2. poses a substantial threat to the health and safety of the school community;
the local health officer shall issue a certificate of health to admit or readmit the student to school.

HB 1182—LS 7135/DI 123
